The Bible was written on three continents

Most was written in what is modern-day Israel (Asia). But some passages of Jeremiah were written in Egypt (Africa) and several New Testament epistles were written from cities in Europe.

This is important to keep in mind when reading the Bible: it wasn't written in a single room by a unified group of people. Instead, these writings were accumulated over the centuries and eventually compiled into the volume we call "the Bible" today.

## Dirt Bikes Originated In The United Kingdom.

The modern dirt bike traces its history to the British-made BSA. This off-road motorcycle became the leading model in the United States once motocross became popular across the pond.

"Are. You. Kidding?!" I yelled, digging through our dryer looking for my shirt. I found it. And . . . something else. My white shirt had an ink spot on it. In fact, it looked like a jaguar pelt: ink splotches coated everything. I clearly hadn't checked my pockets, and a leaky pen had stained the entire load. Scripture often uses the word stain to describe sin. A stain permeates the fabric of something, ruining it. And that's how God, speaking through the prophet Jeremiah, described sin, reminding His people that its stain was beyond their ability to cleanse: "Although you wash yourself with soap and use an abundance of cleansing powder, the stain of your guilt is still before me" (Jeremiah 2:22). Thankfully, sin doesn't get the last word. In Isaiah 1:18, we hear God's promise that He can cleanse us from sin's stain: "Though your sins are like scarlet, they shall be as white as snow; though they are red as crimson, they shall be like wool." I couldn't get the ink stain out of my shirt. Neither can I undo the stain of my sin. Thankfully, God cleanses us in Christ, just as 1 John 1:9 promises: "If we confess our sins, he is faithful and just and will forgive us our sins and purify us from all unrighteousness."
