Do you have a designated place where you can go to pray and read the word? You might try this, it has worked for me.

Please be praying I can get into the MXoN with a booth. The last two Nationals have been great and I am getting more printed material to hand out.

Oats
This grain is a natural source of a wide variety of nutrients that may support healthy blood pressure, including beta-glucan fiber—a unique type of soluble fiber that works by forming a gel-like substance in the gut, which has been shown to reduce the absorption of cholesterol into the bloodstream.¹⁰ And studies show there's an important relationship between oat intake and decreased blood pressure, as well as a reduction in the need for anti-hypertensive medications.¹⁰. All good reasons to whip up a hearty bowl of Old-Fashioned Oatmeal for your morning meal.

MEMORY VERSE

Isaiah 63:7

7 I will tell of the kindnesses of the LORD, the deeds for which he is to be praised, according to all the LORD has done for us—yes, the many good things he has done for Israel, according to his compassion and many kindnesses.

First Motorcycle: The first motorcycle was built in 1885 by Gottlieb Daimler and Wilhelm Maybach, known as the "Reitwagen," which translates to "riding car" in German.

Historical Significance: The Bible was written over a period of approximately 1,500 years by around 40 different authors from various backgrounds, including shepherds, kings, and fishermen.

The book Hidden Figures recounts preparations for John Glenn's flight into space. Computers were newfangled inventions in 1962, subject to glitches. Glenn didn't trust them and worried about calculations for the launch. He knew one brainy woman in the back room could run the numbers. He trusted her. "If she says the numbers are good," Glenn said, "I'm ready to go."

Katherine Johnson was a teacher and mother of three. She loved Jesus and served in her church. God had blessed Katherine with a remarkable mind. NASA tapped her in the late 1950s to help with the space program. She was Glenn's "brainy woman," one of the "human computers" they hired at the time. We may not be called to be brilliant mathematicians, but God calls us to other things: "To each one of us grace has been given as Christ apportioned it" (Ephesians 4:7). We're to "live a life worthy of the calling" we've received (v. 1). We're part of one body, in which "each part does its work" (v. 16). Katherine Johnson's calculations confirmed the course trajectory. Glenn's launch into orbit was like "hitting a bull's-eye." But this was just one of Katherine's callings. Remember, she was called also to be a mother, teacher, and church worker. We might ask ourselves what God has called us to, whether big or small. Are we "ready to go," exercising the grace-gifts He's bestowed, living "a life worthy of [our] calling" (v. 1)? What has God called you to do? How has He gifted you?
